

Communication and Documentation: What to Expect

Communication with Wediko Clinical Supervisors:

During the summer, families can expect:

- Phone calls from students (one-two times per week)
- Updates from the Clinical Supervisor (one-two times per week)
- Regularly scheduled family sessions (as arranged with family therapist)

Wediko's Clinical Supervisors are embedded within the milieu of the Summer Program, which means that they spend most of their time working directly with the students (at activities, in the cabins, in the dining hall, etc.). As they are not office-based, Supervisors are not always immediately available by phone or email. Except on their days off, Supervisors check voicemail on a daily basis and make every effort to return calls within 24 hours.

In an emergency, please call the NH Campus at 603-478-5236 and follow the prompts to page the Summer Staff on-call.

End of Summer Reports and Paperwork:

At the end of the Wediko Summer Program, each family can expect to receive the following:

- Summer Report: Evaluation of Strengths, Risk Factors, Gains, and Intervention Strategies
- Individual Contract (Treatment Plan)
- Think City Report (Academic Summary)
- Family Therapy Report
- Medication Report (if applicable)

Wediko makes every effort to send out these reports by the first week of September. Due to the volume of reports produced at the end of each summer, please note that **our ability to produce specialized documents is very limited.**

As stated in the funding contract, Wediko will not provide documentation for medical insurance purposes, including but not limited to providing insurance codes, listing therapy hours, or providing a rate for insurance covered services.

As the summer ends, so does Wediko's contracts with our seasonal employees. Clinical Supervisors can be reached until August 25th. After August 25th, please direct all questions to the Wediko Summer Program Director.
